Respected Sir,

Sub: Submission of 2023-24 Feedback form from various stake holders related:-
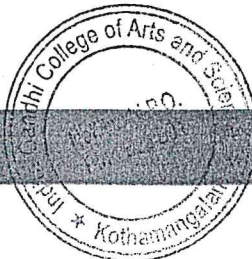

In order to improve academic quality and identify educational gaps in the syllabus and curriculum based on the assumptions of the institutions, organizations, and businesses where the students were employed, the institution gathered input from a variety of stakeholders, including students, faculty, alumni, and employers. These are the recommendations for altering the current curriculum and syllabus.

It gives us great pleasure to put these recommendations before you for future action.

Ideas pertaining to the syllabus and curriculum

- The syllabus must cover topics at the application level.
- The syllabus needs greater flexibility.
- Every year, during any semester, industrial trips and internships must be incorporated to help students hone their skills.
- More skill-building courses must be included.

Thanking You
